

EU/ NATO Peacekeeper & Public Order/Police Respirator

Project	Unit	Performance Parameter	Air Flow Rate
Inhalation Resistance	Pa	< 250	160L/min
Exhalation Resistance	Pa	< 300	
Inward Leakage		< 0.05%	
Visual Field		> 70%	
Binocular Visual Field		>80%	
Dead Space		<1%	
Weight		<500g	

EU (European Union) Military & Law Enforcement Respirator.

The cover body of this product is made of liquid silicone injection moulding, with comfortable and durable silicone skirt design, which ensures good fitting and comfort of the face piece and makes it more comfortable to wear for a long time.

The interface between filter piece and mask adopts standard thread (Rd 40x1/7) design, which is easy to install and disassemble.

This product can enhance its protective ability by combining with the corresponding original filter. The EU Mask is a hybrid, combining aspects and positive qualities from both firefighting and military respirators.

The lens of the product is a large-eye window perspective lens, providing a broad field of vision. At the same time, the lens is reinforced with anti-impact, anti-fogging and other functions to provide users with more effective protection.

Light weight, reduce the fatigue of the head and neck brought by wearing masks for long period of times.

This product adopts standard 6-point high elastic head harness to reduce local pressure on the head and provide good comfort. (Tested and certified)

The filter tank is installed on the left or right side to minimize interference.

Enlarged exhalation valve design reduces the wearer's resistance to exhalation.

Product Details

Product Parameters

Product Name	European Union Gas Mask
Brand Name	na
Item No.	EU
Material	SILICA GEL
Type	Full Face Gas Mask
Applicable accessories	03C/03D Series Filter
Certificate	CE EN136:1998
Color	Black (Blue available for NATO and EU Peacekeeper Forces)
Usage	Military, riot control, law enforcement and other industries.
Features	<ol style="list-style-type: none">1. EU Gas mask RIOT CONTROL/PUBLIC ORDER / LAW ENFORCEMENT (BLACK)

EU/RS Gas mask RIOT CONTROL/PUBLIC ORDER / LAW ENFORCEMENT (BLACK)

Communications Voice projection/amplification model ONLY

The **EU/RS** electroacoustic gas mask is a functional gas mask that integrates an electroacoustic communication module, an intercom module and a drinking water module.

Product information			
Product name	Size	Weight (Without filter)	Packing
1608-DS	unysize	575g	1PC/box

Technical performance description:

1. Power supply mode: nominal 3.7V rechargeable lithium battery;
2. Switch: power switch button, switch is accompanied by voice prompt;
3. Standby time: not less than 168h;
4. Working time: not less than 12h (the ratio of talk and standby time ratio 2:8);
5. Voice signal quality level: about level 4;
6. Working temperature: -10℃ ~ +60℃;
7. Storage temperature: 0℃ ~ +40℃;
8. Waterproof rating: IPX7;
9. Button life: 50,000 times;
10. Noisy environment close speaking, turn on the electroacoustic amplification function, clear dialogue;
11. Long-distance call turns on the electronic acoustic transmission function, wireless call, intercom distance of up to 1500 meters;
13. The amplification and call function can take a standby time for up to 20 days and last for about 12 hours;
14. Call function can set 8 command level, high and low order, to ensure the orderly task;
15. Work for a long time, open the drinking water function, drinking water to supplement the physical fitness;
16. Use close type face mask, face close protection;

List of supporting filters: :

Type	Model	Picture	Weight (g)	Label Color	Minimum packaging
Anti virus Cartridge	03C A2		≤230g	Orange	1PCS/bag, 80PCS/box
	03C B2		≤310g	White	1PCS/bag, 80PCS/box
	03C E2		≤310g	Yellow	1PCS/bag, 80PCS/box
