PBG

Search / Disturbance Control

Honeywell Neoprene Ballistic Nylon

The PBG has a progressive look and features 100% DYNEEMA™ Ballistic Nylon® knit in the inside of the hand and fingers covered with synthetic leather to help prevent punctures & cuts from various sharp objects.

SUPER Grip™ non-slip material in the palm offers sure grip and positive weapon control.

RE GUARD is constructed of 1.5mm neoprene and nylon spandex for a snug fit without hindering dexterity.

The spandex panels also allow air to circulate and keep hands cooler than other cut resistant neoprene gloves.

The outer thumb area has terry cloth for wiping away perspiration.

A Velcro® closure keeps the hand™ firmly in place.
