

Thigh, Hip & Groin Protector

Features:

The H-TPX200 provides substantial protection from blunt force trauma. With contour moulded outer shell features impact ridges that disperse the brunt of the blows, while foam inner padding cushions the body. Soft brush and mesh line the inside to reduce abrasion and provide long-term comfort.

The hard-shell protectors are used for covering and protecting the waist and groin areas. They are designed to withstand hard blow, and prevent penetration or stabbing by sharp tools, anti-fire and anti-acidity.

Rigorous standards of our most elite law enforcement agencies, for quality, operational flexibility, protection area, energy absorbency, and flame resistance performance.

Simplicity is the important factor.

Anti-Riot Suit fastens and deploys quickly with durable nylon straps and Velcro closures, allowing a custom fit for a wide variety of body types.

THIGH SECTION

- Polyethylene outer shell
- Laminated EVA foam & L2500 EVA foam
- Mesh inner lining
- Elastic adjuster with hook and loop fasteners

GROIN SECTION

- EVA foam padding with mesh outer covering
- Inner Polyethylene shell
- Commercial-grade elastic adjusters and connectors
