

Tuff Tie

Nylon braided hand, foot & transport restraints

For over 26 years TUFF-TIES have been providing a smart alternative to the carrying of multiple heavy metal cuffs and the cumbersome and often-dangerous rigid plastic restraint commonly found hanging off an officer's already overcrowded gun belt.

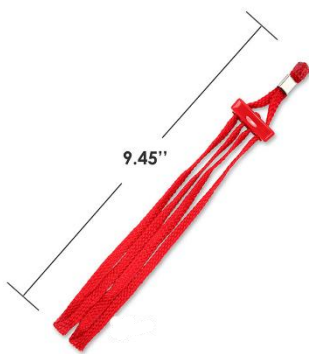

THE ONLY NYLON BRAID DISPOSABLE RESTRAINT ON THE MARKET

Five distinct advantages separate TUFF-TIES from all the competition:

- The most easily carried and concealed restraint available, by far.
- Soft conforming fit naturally reduces prisoner injury.
- Unsurpassed breaking strength of 800 lbs. when used as directed.
- **New-** Thumb and finger pull-tag for added grip & security
- Unlimited shelf life.
- Completely unaffected by weather extremes.
- Made in USA

EASY TO USE

Safety Cutter for Tuff Tie

brand new and high quality

Features:

- Suitable for cutting nylon 66 grade restraints
- Stainless steel razor blade.
- Hard impact plastic.
- Cuts easily through seat belts & other material
