

# No Shank Inc.

Safety Products

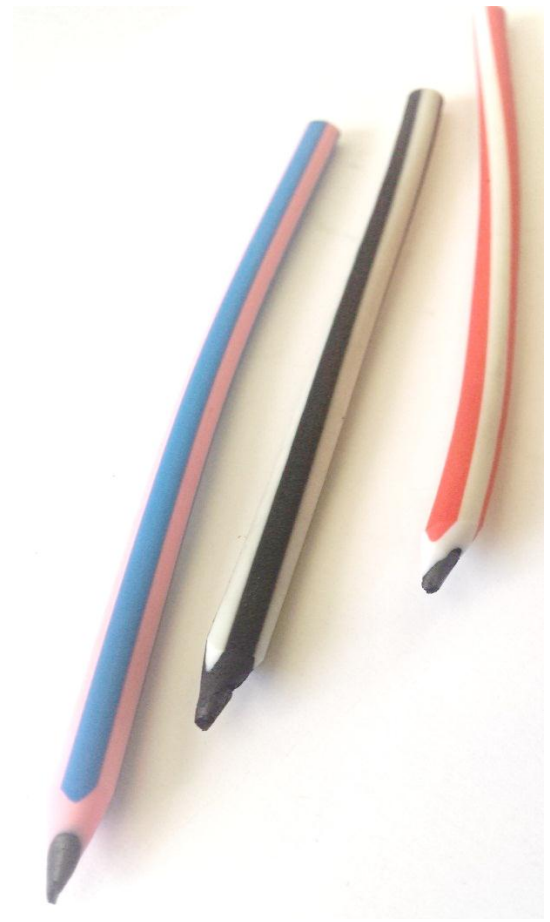

This products offers you the equal features of a standard pencil, so you can draw, write and even shade exactly the same as a normal pencil.

The No Shank Pencil (Z-RPAE) incorporates safety features which do not allow any part of the pencil to be used as a weapon or dangerous device.

The special design casing allows the user to bend and twist the pencil without damaging the graphite writing feature.

The Z-RPAE can be sharpened using the same ordinary pencil sharpener.

All filings are non toxic and are biodegradable.

## Product Description:

Outer material: Rubber (non-toxic)

Outer Colour: **multi colored**

Inner Material: clay and graphite (thermoplad process)

Size: length 16cm (166mm), dia. 0.6cm (6.0mm)
